education

2014–2017 **BSc Physics w/ Inorganic Chemistry** University College London (UCL), London
1st Class

Relevant modules:

- Scientific Programming using Java 79%
- Scientific Communication and Computing using Matlab 80%

2011–2013 **A-Levels** Graveney School, London
A2: Maths A*, Physics A*, Chemistry A* AS: Economics A

2009–2011 **GCSEs** Graveney School, London
8 A* including Maths & English, 2 A, 2B

skills

- React / Redux
- Python
- GraphQL
- JavaScript
- HTML5
- Vim
- Django
- CSS/Sass

experience

Apr 2018 **Octopus Energy** London, UK
–Aug 2019 *Front-end Developer*

Worked on customer and internal customer support interfaces mainly with React; secondarily with Django. Built a dashboard to monitor all call centre calls and agent statuses. Built the new customer account dashboard using Apollo GraphQL on the client-side and wrote parts of the GraphQL schema using Graphene-Django.

Aug 2017 **UCL** London, UK
Course Assistant

Assistant to professor running the Java module I had taken the previous term. I developed Java JUnit tests to automate the marking of tutorial coursework questions, ported model answers from Java into python, and proofread course notes.

Mar 2014 **International Citizenship Scheme (ICS)** Ouagadougou, Burkina Faso
–Jun 2014 *Volunteer*

Taught disability sport to children with various disabilities. This role required effective planning of the lessons, teamwork with UK and national volunteers, and team evaluations of our performance to deliver successful sessions.

interests
